

## **First esports Stadium in Canada coming to Vancouver**

### **The Gaming Stadium set to open in 2019**

VANCOUVER, August 1, 2018 – Local group Myesports Ventures Ltd. is proud to announce The Gaming Stadium, a first of its kind esports Stadium in Canada, being built in Richmond, British Columbia with an opening date in 2019.

The Gaming Stadium will be custom built with one goal in mind; to provide a community driven location that is open for players of all ages and skill levels to watch and participate year-round. “Today is an exciting day for me and the entire team at The Gaming Stadium. We have been working hard to get this off the ground” said CEO Dan Cybak. “Our team is made up of people who have been organizing and participating in tournaments in this city for years. We have built a group that covers all aspects of esports. This facility is truly built by gamers for gamers.”

“We are focused on more than top-level players or hosting major events. We are aiming to cultivate the next great gamers as we will be holding leagues for all skill levels while also offering coaching for those who want to take their skills to the next level” said COO Matthew Low. “We are going to be the Little League, Junior League, and Major League home of all things esports in Vancouver.”

The Gaming Stadium will feature a large main gaming stage with seating for up to 250 spectators. Also included will be a gaming area with over 40 set-ups, a casual area where players can drop in, a full broadcast facility and a variety of food and beverage offerings.

“This is not only an amazing opportunity for gamers in our community but also for companies looking to reach this demographic” said VP, Sales and Marketing, Spiro Khouri. “We have some great brands on board already and have options for anyone from small to large business looking to partner with us.”

“We have so much in store for everyone and we are excited to continue making announcements leading up to launch” said Dan. “This is going to change the landscape of esports in Vancouver.”
